> **7+ years** building payment gateways, microservice platforms and SaaS with **TypeScript, Node.js & React**. Currently shipping a global payment gateway: **50+ PSP integrations, 20+ payment methods, 25 microservices on Kubernetes, 100% publicly tracked uptime**. Daily AI-augmented workflow — **Claude Code, custom MCP servers, agentic pipelines** — every line reviewed and tested.

CORE SKILLS

Languages: TypeScript, JavaScript

Backend: Node.js, NestJS, Express, GraphQL (Apollo), REST, WebSockets, microservices

Databases: PostgreSQL, MongoDB, MySQL, Redis, TypeORM, Sequelize

AI Engineering: Claude Code, MCP servers, agent skills & workflows, AI code review, spec-driven development

Frontend: React, Redux/Saga, React Native, PWA

Infra: Docker, Kubernetes, AWS, GCP, Firebase, Kafka, RabbitMQ, CI/CD, Jest

EXPERIENCE

Full-Stack Software Engineer · CommerceGate — Payment Service Provider — Dec 2023 — Present

- Global payment gateway: cards + **20+ alternative payment methods** (PIX, Boleto, Apple Pay, UPI, crypto…) across LATAM, EU, Asia
- **50+ PSP/acquirer integrations** behind a unified processing API; **25 microservices on Kubernetes** (Kafka, PostgreSQL, MongoDB, Redis)
- Reconciliation, reporting, invoicing; **100% uptime** on the public status page
- Daily AI-augmented workflow: **Claude Code + custom GitLab MCP tooling** for features, review and debugging

Full-Stack Developer (Freelance) · Crypto Investment Platform — Aug 2023 — Dec 2023

- Admin + customer React front-ends; NestJS backend with WestWallet API; CI/CD on Google Cloud

Full-Stack Developer · Akvelon — NDA project — Nov 2021 — Nov 2023

- Progressive Web App on React + Syncfusion + IndexedDB (offline-first); maintainer of a long-running production product

Team Lead / Full-Stack Developer · AppSide — ML Platform & CPA Network — Dec 2020 — Nov 2021

- **Led a team of 3** (2 full-stack + QA) on the CPA Network: CRM, webmaster panel, partner service
- ML platform: **8 backend microservices**, SAGA orchestration — NestJS, RabbitMQ, Apollo GraphQL, PostgreSQL

Lead Full-Stack Developer · Koitechs — Feb 2020 — Dec 2021

- COVID-19 statistics web/mobile app (React, React Native, Firebase); video-production SaaS on AWS (S3, Lambda, SNS, SQS)
- Music school mobile app; versioned blog constructor for a major car brand

Full-Stack Developer · FreshCode IT — May 2018 — Feb 2020

- TV channel CMS with a custom page builder; news aggregator (WebSockets, Redis caching, multi-source scraping)

SELECTED PROJECTS

Global Payment Gateway fintech — 25 k8s microservices, Kafka, 50+ PSPs, reconciliation & billing; 100% publicly tracked uptime.

Price Parser AI-assisted build — 65 supplier feeds automated: weekly manual work 7h → 1h (−85%).

Home Finances Bot fully AI-built · reviewed & tested — Telegram + Monobank webhooks, PDF analytics, integration tests; in production (family use).
